

YASHVI SHAH

Ahmedabad, India | +91 91060 60400 | yashvishah991@gmail.com | linkedin.com/in/yashvi-shah-3a1915174

PROFESSIONAL SUMMARY

Full-Stack Developer with 5+ years of experience building web applications using Node.js, TypeScript, Next.js, Laravel, and PostgreSQL. Experienced in developing scalable REST APIs, JWT authentication, role-based access control (RBAC), and workflow automation. Proficient in optimizing database performance and integrating third-party systems like payment gateways and ERPs. Focused on writing clean, maintainable code to deliver reliable software solutions.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, PHP 8

Backend: Node.js, Express.js, Laravel, CodeIgniter, NestJS (Familiar)

Frontend: Next.js, Angular

Databases: PostgreSQL, MySQL, Redis (Basic), Supabase (Basic), Query Optimization, JSONB

Authentication: JWT, Role-Based Access Control (RBAC), OAuth2 (Basic)

Architecture: Multi-Tenant Architecture, MVC, Microservices (Basic)

Integrations: Tally ERP, Twilio, MSG91, Facebook Lead Ads, Razorpay, Stripe, PayPal

DevOps & Cloud: Queue Jobs, Cron Jobs, Docker (Basic), Webhooks

Tools: Postman, Ubuntu CLI, Jira, VS Code, GrapesJS, Chart.js, PDFKit, Node Canvas, SheetJS

Version Control: Git, GitHub, GitLab, Bitbucket, GitFlow, CI/CD (Basic)

PROFESSIONAL EXPERIENCE

CodExalters Techlabs | Full-Stack Developer

Sept 2024 – Present

- Developed CRM platforms and business automation applications using Node.js, TypeScript, Next.js, and PostgreSQL.
- Designed secure REST APIs with JWT authentication, RBAC, and reporting modules.
- Built backend services that handle 30,000+ daily API requests, optimizing response times and improving application performance by 35%.
- Implemented queue jobs and cron jobs for automated workflows and third-party integrations.
- Developed a full-stack Next.js application, handling dynamic forms, data import/export, and contact management.
- Tuned PostgreSQL database queries to support high-volume business operations.

Latitude Technolabs Pvt. Ltd. | Laravel Developer

Feb 2023 – June 2024

- Developed accounting and business management applications using Laravel, PHP, MySQL, and REST APIs.
- Integrated Tally ERP with custom accounting modules to automate voucher processing and reduce manual data entry.
- Built authentication systems, reporting engines, and workflow management features for enterprise clients.
- Optimized database queries to improve application performance for large transaction datasets.

- Implemented payment gateway integrations including Razorpay, Stripe, and PayPal.

Sinon-Tech Pvt. Ltd. | PHP Developer

May 2021 – Jan 2023

- Built and maintained business process automation platforms using Laravel, CodeIgniter, and core PHP.
- Developed robust REST APIs and secure authentication modules for database-driven web applications.
- Collaborated with frontend teams to integrate MySQL databases with Angular interfaces.
- Contributed to database schema design, system debugging, query optimization, and application deployment.
- Maintained existing applications, ensuring system stability while developing new performance improvements.

KEY PROJECTS

BizzPlus CRM & Real Estate Platform

Technologies: Node.js, PostgreSQL, Angular, REST APIs, JSONB

- Developed a multi-tenant CRM tailored for the real estate sector, enabling isolated data management.
- Built a dynamic form builder and integrated strict role-based access control along with audit logging.
- Created an automated lead-property matching algorithm and supported bulk data operations.
- Implemented communication automations using WhatsApp, Email, and Facebook Lead Ads.

AtHeal Hospital Management System

Technologies: Node.js, REST APIs, Database Optimization, RBAC

- Built management modules for hospital administration, empowering doctors, patients, and staff through secure access control.
- Developed REST APIs to serve as the backend for web interfaces and mobile applications.
- Implemented onboarding workflows, real-time notifications, dynamic forms, and analytics dashboards.
- Designed database schemas to ensure reliability for sensitive healthcare data.

Uthereal Platform (Next.js)

Technologies: Next.js, Frontend & Backend Development, API Integrations

- Developed a full-stack web application leveraging Next.js for client-side and server-side logic.
- Built user authentication pipelines, interactive forms, and comprehensive contact management features.
- Implemented flexible data import/export modules and integrated automated business workflows.
- Improved application performance and responsive design for a better user experience.

Shree Shubham Trust Management System

Technologies: Node.js, Node Canvas, SMS/WhatsApp Automations

- Built an end-to-end system featuring membership administration, Aadhaar verification, and payment tracking.
- Developed financial logic for commission calculations across large-scale trust operations.

- Implemented automated certificate generation using Node Canvas to dynamically render documents.
- Integrated SMS and WhatsApp pipelines to trigger instant notifications for trust members.

EDUCATION

M.Sc. (Computer Applications & IT) K.S. School of Business Management, Gujarat University	2020 (79%)
B.Sc. (Computer Applications & IT) K.S. School of Business Management, Gujarat University	2018 (72%)
H.S.C. Navchetan High School, Gujarat Board	2015 (83%)
S.S.C. Navchetan High School, Gujarat Board	2013 (76.5%)

KEY STRENGTHS

- Strong analytical problem-solving and debugging skills.
- Quick learner, adaptable to new technologies and modern frameworks.
- Focus on writing clean code and performance optimization.
- Effective communicator in cross-functional team collaborations.
- Ownership mindset with a record of on-time project delivery.
